Pursuant to the Subscription Agreement, CCFS will undertake to the Joint Lead Managers and the Arranger that it will (i) retain on an ongoing basis, the Retained Exposures as required by Article 6(1) of the Securitisation Regulation (which does not take into account any corresponding national measures), (ii) comply with the disclosure obligations under Article 7(1)(e)(iii) of the Securitisation Regulation by confirming the risk retention of the Seller as contemplated by Articles 6(1) and 6.3(c) of the Securitisation Regulation and (iii) not sell, hedge or otherwise mitigate (and shall procure that none of its affiliates shall sell, hedge or otherwise mitigate) the credit risk under or associated with the Retained Exposures except to the extent permitted under the Securitisation Regulation. As at the Closing Date, such retention requirement will be satisfied by CCFS retaining randomly selected exposures equivalent to no less than 5 per cent. of the nominal value of the securitised exposures, where such exposures would otherwise have been securitised in the transaction effected by the Issuer in accordance with Article 6(3)(c) of the Securitisation Regulation. Any change to the manner in which such interest is held will be notified to the Noteholders. Except with the express written consent of the Seller in the form of a U.S. Risk Retention Consent and where such sale falls within the exemption provided by Section 20 of the U.S. Risk Retention Rules, the Notes or the Residual Certificates offered and sold by the Issuer may not be purchased by any person except for persons that are not Risk Retention U.S. Persons.

* "Arrears" means as at any date in respect of any Loan, all amounts currently due and payable on that Loan which remain unpaid on that date, provided that such overdue amounts equal, in aggregate, one or more full Monthly Instalments.

"Monthly Instalment" means the amount which the relevant Mortgage Conditions require a Borrower to pay on each monthly payment date in respect of that Borrower's Loan.

* Performing Principal Balance refers to the Loans that have paid an amount equal to at least their monthly CMS

Prepayment Rate (CPR)

1 Month Periodical Constant Prepayment Rate (CPR) with Calculation (Annualised)	Oct-20	Nov-20
Annualised Periodical CPR speed is the amount expressed as a periodical percentage of principal prepaid in excess of scheduled repayments. The Periodical CPR speed is calculated by first dividing the Current Residential Mortgage Loan Principal Balance (i.e. the actual balance) by the Scheduled Residential Mortgage Loan Principal Balance in the period assuming no prepayments have been made (i.e. only scheduled repayments have been made). This quotient is then raised to a power whereby the exponent is the quantity twelve divided by the number of months in the period. Subtract this result from the one then multiply it by one hundred (100) to determined the Periodical CPR speed.		
The calculation is expressed as follows:	$CPR_{Avg} = 100 \times \left[1 - \left(\left(\frac{\text{Current Residential Mortgage Loan Principal Balance}}{\text{Scheduled Residential Mortgage Loan Principal Balance}} \right)^{\frac{12}{\text{months since}}} \right) \right]$	
	21.75%	15.28%

12 Month Periodical Constant Prepayment Rate (CPR) with Calculation (Annualised)	Oct-20	Nov-20
Annualised Periodical CPR speed is the amount expressed as a periodical percentage of principal prepaid in excess of scheduled repayments. The Periodical CPR speed is calculated by first dividing the Current Residential Mortgage Loan Principal Balance (i.e. the actual balance) by the Scheduled Residential Mortgage Loan Principal Balance in the period assuming no prepayments have been made (i.e. only scheduled repayments have been made). This quotient is then raised to a power whereby the exponent is the quantity twelve divided by the number of months in the period. Subtract this result from the one then multiply it by one hundred (100) to determined the Periodical CPR speed.		
The calculation is expressed as follows:	$\text{Periodical CPR} = 100 \times \left[1 - \left(\left(\frac{\text{Current Residential Mortgage Loan Principal Balance}}{\text{Scheduled Residential Mortgage Loan Principal Balance}} \right)^{\frac{12}{\text{months in period}}} \right) \right]$	
	17.11%	17.55%

3 Month Periodical Constant Prepayment Rate (CPR) with Calculation (Annualised)	Oct-20	Nov-20
Annualised Periodical CPR speed is the amount expressed as a periodical percentage of principal prepaid in excess of scheduled repayments. The Periodical CPR speed is calculated by first dividing the Current Residential Mortgage Loan Principal Balance (i.e. the actual balance) by the Scheduled Residential Mortgage Loan Principal Balance in the period assuming no prepayments have been made (i.e. only scheduled repayments have been made). This quotient is then raised to a power whereby the exponent is the quantity twelve divided by the number of months in the period. Subtract this result from the one then multiply it by one hundred (100) to determined the Periodical CPR speed.		
The calculation is expressed as follows:	$\text{Periodical CPR} = 100 \times \left[1 - \left(\left(\frac{\text{Current Residential Mortgage Loan Principal Balance}}{\text{Scheduled Residential Mortgage Loan Principal Balance}} \right)^{\frac{12}{\text{months in period}}} \right) \right]$
